Introduction

This is a self-help book. If you use it intelligently, you will help yourself to strengthen and expand your word knowledge. The words you will learn, moreover, are essential in that they are known and used regularly by educated people. You will find that such words as *squander*, *rehabilitate*, *blunder*, *obesity* and five hundred more will turn up in your newspapers, in the magazines you read, in books, on television, in the movies, and in the conversation of the people you meet daily.

504 Absolutely Essential Words is divided into forty-two lessons, each containing twelve new words. Those words are first presented to you in three sample sentences; next, the new words appear in a brief article; the last part of each lesson is a set of exercises that give you practice using the new words. One of the most important features of **504...Words** is that each of the new words is repeated over and over again throughout this book so that you will have a greater chance to become familiar with it.

Newly added are seven Word Review sections, each containing challenging exercises that will help you to test your mastery of the new words.

How To Use This Book

504 Absolutely Essential Words can be used in a number of ways, depending upon the needs and the status of the reader. A student in a high school English class, for example, could work with the book over a period of one school year, learning a dozen words each week for forty-two weeks. Pupils who are studying vocabulary in an individualized program can move through the text at their own speed, mastering the new words as rapidly as they are able. Adults, out of school, can dip into the book on a selective basis, paying attention to the new words and skipping over those with which they are already familiar.

The High School English Class Some teachers prefer to set aside one day a week for intensive vocabulary study. At such time the sentences containing the new words are often read aloud so that the pupils hear them used in context. The definitions may be copied into a vocabulary notebook to reinforce the learning. Next, the accompanying paragraph(s) containing the twelve new words should be read aloud, followed by the exercise in which the blanks are to be filled in. Some discussion of the “Spotlight on” word is appropriate, preceding a homework assignment in which the students compose original sentences for each of the new words.

Independent Study An interesting way to approach **504 Absolutely Essential Words** on one’s own is to take an informal pre-test on each week’s words, comparing the definitions with the ones provided in the text. After studying the three sample sentences, the reader should compose several original ones, using the model paragraph(s) for resource material.

The “Spotlight on” word introduces students to the fascinating history of the English language. They are advised to look up other words in each lesson in order to find out about their origin and to expand their vocabulary in the process.

Finally, students who are working on their own should complete the exercises at the end of each section, filling in the blanks and striving for a perfect score.

Repetition The words with asterisks (*) are those which have been taught in previous lessons. They are planted everywhere in the book since the repetition of newly-learned material is a recognized road to mastery. If you come across such a word but cannot remember its meaning, turn back to the lesson in which that word first appeared. (See the index on pages 137 and 138 for such information.)

Read the following story to see how the new words are used in it.

My Brother, the Gentleman

The story of Sir Walter Raleigh who spread his cloak on the ground to keep Queen Elizabeth from the **hardship** of crossing a muddy puddle can **qualify** that nobleman for an award as a man of **tact** and good breeding. My brother Kenny, a **bachelor** with a **keen** interest in history, was impressed by that anecdote and thought he might demonstrate his excellent upbringing in a parallel situation. Accordingly he decided to **abandon** his subway seat in favor of a woman standing nearby.

Although **unaccustomed** to such generous treatment, the young woman was pleased to accept Kenny's kind offer. However, her **jealous** boyfriend swore an **oath** under his breath because he thought my brother was flirting with his girlfriend. I don't have any **data** on the number of young men who get into similar trouble as a result of a **gallant** gesture, but it's probably one in a thousand. Poor Kenny! He pointed to the now **vacant** seat.

Spotlight on:

abandon — This is an interesting word with a French background; in that language it meant “to put under another’s control,” hence, “to give up.” In Lesson 19 you will find the new word *ban*, and may discover how it is related to *abandon*. A good dictionary will also show you the connection with other words such as *bandit* and *contraband*.

Read the following story to see how the new words are used in it.

Terror In the Cemetery

I like to bet on anything that is exciting, so when my friends tried to **tempt** me with an offer, I took it. The idea was for me to spend a **frigid** December night in a cemetery, all alone, in order to win twenty dollars. Little did I realize that they would use dirty tricks to try to frighten me to abandon* the cemetery and, therefore, lose my **wager**.

My plan was to **recline** in front of a large grave, covered by a warm blanket, with a flashlight to help me cut through the **dismal** darkness. After midnight, I heard a

wild **shriek**. I thought I saw the grave open and a **corpse** rise out of it! Although I was somewhat **numb** with fear, I tried to keep my senses. Using good judgment, I knew that no **peril** could come to me from that **sinister** figure. When I did not run in terror, my friends, who had decided to **conceal** themselves behind the nearby tombstones, came out and we all had a good laugh. Those spirits which may **inhabit** a cemetery must have had a good laugh, too.

Place one of the new words in each of the blanks below.

1. The chances of my winning the election were so _____ that I decided to quit before the votes were counted.
2. I won the _____ that my bachelor* friend would be married by June.
3. Kit Carson's keen* eyesight protected him from the _____ in the forest.

Read the following story to see how the new words are used in it.

Start Saving for Sable

You have just won first prize in a lottery, and you need a new winter coat. How about a sable fur coat? A sable coat may be **expensive**, but it is soft, light, and warm.

A **typical** sable coat costs more than a Cadillac, as much as an education at a good college, more even than some inexpensive homes. Why? A **minimum** of sixty **scarce** little pelts, at nearly \$600 per pelt, go into each coat. Fur merchants gather each year in frigid* Leningrad, Russia, to bid for the furs at the **annual** auction there. Then the furs are shipped to America and processed in chemicals and oils until soft. After the customer chooses the skins for her coat, the dismal* process of matching begins — a long but **essential** job.

Each coat is made from a bundle of skins that ranges from light to dark in color, and the skins have to **blend** so that the seams are not **visible**. Finally, the coat is styled and finished.

If you don't win a lottery, see if you can **persuade** your **beau** to **devise** a way to get a sable coat for you **wholesale**. Oh, well, you can always wear an extra sweater or two if it gets really cold this winter, and knowing that sixty innocent animals did not die in order to make you a coat may help to keep you warm.

Place one of the new words in each of the blanks below.

1. The March of Dimes makes its _____ appeal in the early spring.
2. Oil paints _____ easily to form thousands of different shades.
3. The _____ passing mark in most schools is 65%.

Spotlight on: **expensive**—The definition given to you was “costly, high-priced.” Other synonyms could have been provided because English is quite rich in that area. Webster’s *Dictionary of Synonyms*, for example, contains ten entries which explain *expensive* or show us slight variations of the word: *costly*, *dear*, *valuable*, *precious*, *invaluable*, *priceless*, *exorbitant*, *excessive*, *immoderate*. When would you use *costly* as a synonym for *expensive* and when would you use *excessive*?

Read the following story to see how the new words are used in it.

A Fan in the Air

Fog, tiny droplets of water **vapor**, is the **villain** of the airports. In an effort to **eliminate dense** fog from airports, weathermen **utilize** giant fans, nylon strings, and chemicals dropped from planes or shot upwards from strange machines on the ground. Nothing works as well, though, as a new weapon in the fight against fog: the helicopter. Researchers believe that if warm dry air above the fog could somehow be driven down into the **humid** blanket of fog, the droplets would evaporate, thus clearing

the air. In a recent experiment to test their **theory** the researchers had a helicopter **descend** into the fog above barely visible* Smith Mountain Airport near Roanoke, Virginia. The blades of the helicopter caused the air to **circulate** downwards and an **enormous** hole in the clouds opened above the airport. Weathermen **predict** that with larger, more expensive* helicopters they will be able to make the thickest fog **vanish**.

Spotlight on: **villain**—We see from this how social attitudes can affect the meanings of words. In Latin a *villa* was a small farm and its buildings; a connection of such buildings became a *village*, and a person who lived on such a farm was a *villain*. Some who lived in the cities looked down on the country folk, regarding them as stupid, low-minded, and evil. In that way, country people earned a reputation (*villains*) they did not deserve.

Read the following story to see how the new words are used in it.

Shape Up at Shaker

Each summer at the Shaker Work Group, a special school in **rural** Pittsfield, Massachusetts, where teenagers learn by working, it has been a **tradition** to have the teenagers take on the **burden** of setting their own rules and living by them. Although there are some adults on the **campus**, teenagers are a **majority**.

One summer the group **assembled** to **explore** the **topic**: "lights-out time." There was little **debate** until 10:30 P.M. was suggested. Why? Everyone at the Shaker Work Group works a minimum* of several hours each

morning on one project and several hours each afternoon on another. Since everyone has to get up early, no one wanted to stay up later at night anyway.

Few teenagers at the Shaker Work Group try to **evade** the rules. When one does, the entire group meets to **probe** the reasons for the "villain's"* actions. Their aim is to **reform** the rule breaker. However, at Shaker Village, the theory* is that teenagers who are busy working will have no time to break rules.

Place one of the new words in each of the blanks below.

Read the following story to see how the new words are used in it.

The Health of Your Car

The newest **approach** to automobile repair is the clinic, a place where car doctors go over an automobile in an attempt to **detect defects**. Since the clinic does no repairs, its **employees** do not **neglect** the truth. So many automobile owners feel that mechanics **deceive** them that the clinics, even though they **undoubtedly** charge high fees, are quite **popular**.

They explore* every part of the engine, body, and brakes; they do all kinds of tests with expensive* machines. Best of all, the **comprehensive** examination takes only about half an hour. With the clinic's report in your hand no mechanic will be able to **defraud** you by telling you that you need major repairs when only a small repair is necessary.

The experts do a **thorough** job for each **client**.

Read the following story to see how the new words are used in it.

The Guitar

It is impossible to **exaggerate** the popularity* of the guitar. One out of every four **amateur** musicians in the United States plays the guitar. Even a **mediocre** player can produce a **variety** of music with this unique* instrument. Trying to find **valid** reasons for the guitar's ability to **survive** through the years isn't hard. One **weird**

theory* by a **prominent** musician states that guitarists find **security** hiding behind the **bulky** instrument. But most people are **reluctant** to accept this idea because there are more **obvious** reasons for playing a guitar. It can be carried anywhere, it is inexpensive* to buy, and only a few lessons are required to learn to play it well.

Read the following story to see how the new words are used in it.

More About the Guitar

The guitar is one of the oldest instruments known to man. It probably originated in the **vicinity** of China. There were guitars in ancient Egypt and Greece as well, but the written history of the guitar starts in Spain in the 13th **century**. By 1500 the guitar was popular in Italy, France, and Spain. A French **document** of that time **concludes** that many people were playing the guitar. Stradivarius, the **undeniable** king of violin makers, could not **resist** creating a variety* of guitars. Also, there was no **lack** of

music written for the instrument. Haydn, Schubert, and others wrote guitar music. When the great Beethoven was asked to compose music for the guitar, he went into a **rage** and refused, but eventually even Beethoven could not **ignore** the **challenge**; legend tells us he finally called the guitar a **miniature** orchestra. Indeed the guitar does sound like a little orchestra! Perhaps that is why in rural* areas around the world the guitar has been a **source** of music for millions to enjoy.

Read the following story to see how the new words are used in it.

Bet on the Blonde

Can women **excel** as jockeys in big-time horse racing? Until recently the **feminine** touch was kept out of racing, but now at tracks all over the country women **mount** horses and **compete** with men, most of whom **dread** the whole idea. Their **masculine** image, they feel, may vanish.* Also, some offer the **weak** argument that females are

a **menace** on the track. But, as we all know, we should resist* the **tendency** to **underestimate** the power of women. A few female jockeys have been **victorious** in **numerous** races, and this is probably what has put the male jockeys in a rage.* It would be wise if the men were more **flexible** in their attitudes toward women athletes.

Place one of the new words in each of the blanks below.

Read the following story to see how the new words are used in it.

The Famous Monster of the Lake

There seems to be more and more **evidence** that the enormous* monster in Loch Ness, a **solitary** lake in Scotland, is more than a **vision**. Each year there are numerous* **glimpses** of the monster by visitors and neighborhood people; also **recent** films, not easy to ignore,* are making even scientists **hesitate**. The story of **frequent** visits by a monster once seemed **absurd** to them but now they are not so sure.

Yet the **conflict** is far from over. Those who believe the monster exists are still in the **minority**, and they are constantly competing* for more information to prove that the Loch Ness monster is not a **fiction**. Even now they are trying to get more and clearer moving pictures of what has become the famous inhabitant* of the lake. Perhaps the question of whether the monster exists or not will be answered in this coming **decade**.

Read the following story to see how the new words are used in it.

The Electric Auto Is on Its Way

Ignite gasoline and you have noise and smoke; turn on an electric motor and you **abolish** two headaches which are dreaded* by **urban populations**. Automobile manufacturers are **frank** about the way their motors **pollute** the air, and that is why there are frequent* hints that the big companies will soon **reveal** a model electric car.

So far, lack* of knowledge in storing electricity in the

car **prohibits** wide production of electric autos, but recently* Congress called **urgently** for **adequate** research into the battery or fuel cell problem. Electric autos would be inexpensive* to run and would **decrease** air pollution.* It might be weird,* however, to live in the quiet surroundings of a city where autos which used to be noisily **audible** would be whisper-quiet.

Which of the words studied in this lesson is suggested by the picture?

Place one of the new words in each of the blanks below.

1. The doctor was completely _____ with the dying man.
 2. In an _____ whisper, Maria called for my attention.

Spotlight on: **ambush**—What kind of hiding place would best protect a person who wanted to ambush an enemy? The clue is in the word itself. Of course, the bushes or woods provided the greatest safety for the attacker. The bushes are better hidden in the word *ambuscade*, but the meaning is the same. Now you have gained two words in one stroke.

Read the following story to see how the new words are used in it.

Safety in the Air

The most persistent* **plea** of **weary** pilots has always been for a machine that would warn them that they were about to **collide** with an oncoming airplane. Records **confirm** that the number of collisions is increasing each year, and pilots **verify** hundreds of reports of near misses. Recently a system that would electronically **anticipate** oncoming airplanes was devised,* and the

pilot's **dilemma** to dive or to climb, to **detour** to left or right, may be solved. The system has **merit**, though, only if every plane is equipped to **transmit** and receive a signal to and from an oncoming plane. But most aviation experts feel that only a system that watches every airplane in the sky will **relieve** a problem that tends to **baffle** every one who attempts to find a solution.

Read the following story to see how the new words are used in it.

Handling Poisonous Snakes

How do the Indian snake charmers handle those live poisonous **reptiles** without being poisoned? Visitors to the Hopi Indians **rarely** leave the reservation without asking. Because Indians **forbid** any white person from taking part in such a ceremony, scientists could come to one **logical** answer: before the Indians **exhibit** the snakes, they **proceed** to remove the fangs. Yet some scientists

verify* the fact that all the snakes have fangs. They have a different theory.* The Indians take an important **precaution**: they **extract** most of the poison **prior** to the snake dance. Now the Indian can **embrace** the snake without being poisoned. He will appear **valiant** because he knows that the snake has only a **partial** supply of its deadly poison.

Love and Marriage

The famous **architect** Melville Fenton grew tired of **matrimony** and devised* a scheme to free himself of his spouse.* He told her he had been engaged by an American company to design its new office building in Paris. Packing his **baggage**, he left his home and proceeded* to cut all his ties with his former life. He changed his name, secured a new job, and quickly forgot his faithful wife.

Not having any responsibilities, he began to **squander** his money and energy. He married another woman, believing he was safe from the law. But his first wife had grown suspicious and resentful.* She learned from his

employer that he had not gone **abroad**, that in fact he had left the firm altogether. With a little detective work, she soon discovered her husband's whereabouts. He had become a **fugitive** from justice* and one **calamity** after another overtook him. He lost his job, became a **pauper** and was no longer the **envy** of his acquaintances. Then his second wife grew ill and died.

After the **collapse** of his plans, there was only one logical* step for Melville to take. He embraced* his wife and asked for her forgiveness. Much to his relief, she decided not to **prosecute** him for **bigamy**.

Read the following story to see how the new words are used in it.

Problems We Face

Despite wars, disease, and natural disasters,* our world is experiencing a population explosion (boom) that threatens* to change or **disrupt** life as we have known it. Vast* numbers of people must be fed and housed, and in the process a whole **rash** of problems has descended* upon the human race.

First has been the pollution* of the air and the contamination* of the water supply. Second has been the **rapid exhaustion** of fuels, minerals, and other natural resources. The response* to this situation has ranged from utter* disbelief to exaggerated* concern.

Since scientists themselves disagree on the **severity** of

the problem, our **feeble** knowledge is surely unable to suggest the correct course of action. But we cannot stand still because there is too much at stake. We are, therefore, compelled* to **unite** in our efforts to insure that human life on this planet does not **cease**. We must learn to be **thrifty**, even **miserly**, with the gifts of nature that we have formerly taken for granted. If our past reveals* a reckless* squandering* of our natural possessions, we must now find an intelligent guide* to their use so that we may remain **monarchs** of a world that has peace and plenty.

Read the following story to see how the new words are used in it.

What Did You Have for Breakfast?

A parents' organization to protect children's health appealed* to a Senate committee to **outlaw** television commercials that **promote** the purchase of sugary products. Too much advertising urges the young child to eat caramels, chocolate, cookies, and pastries. This results in poor eating habits and leaves youngsters **undernourished** and subject to rapid* tooth decay and other diseases.

To **illustrate** the extent of the problem, a recent survey of one typical* day of CBS's Channel 7 in Boston between 7 A.M. and 2 P.M. **disclosed** 67 commercials for sweet-tasting products. Several witnesses said that many children's cereals contained more than 50 percent sugar, that children often forced their parents to buy the cereals, and that **excessive** use of sugar from cereals,

soft drinks and snack foods is a national **disaster**. Dr. Jean Mayer, professor of nutrition at Harvard University, recommended **censoring** the **culprits** in advertising for **juvenile** viewers. Recognizing the powerful opponents* in the food industry who will resist* control, Dr. Mayer said that no feeble* efforts will do. "Sugar-coated nothings," he added, "must cease* to be the standard diet of the American child."

Other witnesses pointed out that many cereal boxes used as **bait** for the children offers of dolls, balloons, airplane or car models, magic kits, monster cutouts and similar trifles,* but the cereal inside the box, they **insisted**, had no more food value than the container it came in.

Read the following story to see how the new words are used in it.

Camp Safety

For years a furniture salesman from Connecticut, Mitch Kurman, has **toiled** ceaselessly* for the passage of a youth summercamp safety bill. Why? Because his son David was drowned when his canoe overturned in the raging* waters of the Penobscot River. The camp counselors leading the trip were inexperienced, had **blundered** into dangerous waters, and had no life jackets for the canoers.

Mr. Kurman was naturally **dazed** by the tragedy.* But rather than merely **mourn** his loss and wait for the painful memory to **subside**, he began a campaign that took him on hundreds of journeys to speak to governors, senators, and congressmen. He had learned that 250,000 children are injured or **maimed** annually* in camp accidents. It

was hard for him to **comprehend** why we have laws that outlaw* mistreatment of alligators, coyotes, birds and bobcats, but we have no law to prevent disasters* to children in summer camps.

Wherever he went, Mr. Kurman was **commended** for his efforts, but he received only trifling* support from the lawmakers. One bill requiring people to put on life preservers when they took to the water "died" in the **final** reading. Another such bill **exempted** private ponds and lakes, exactly the waters where most summer camps are located.* Even a bill calling for a survey of camp safety conditions was at first defeated. Mr. Kurman's struggle so far has been in **vain**, but he continues his battle to avoid* a **repetition** of the accident that took his son's life.

Spotlight on: **maim**—If you are a reader of fine print, you might notice that auto insurance policies don't use words like *maim* carelessly because this word has a very specific meaning. *Maim* suggests the loss or destruction of an arm or leg or both; to be *maimed* a person would have to suffer permanent injury. Would the insurance company use the word *mutilate*?

Read the following story to see how the new words are used in it.

Bible Zoo

One of the most popular* tales of the Bible **depicts** the great flood that destroyed every **mortal** except Noah and his family and the animals on his ark. Should there be a repetition* of that disaster,* there is one place where all the biblical animals are already gathered. The man to be commended* for this **novel** collection is Professor Aharon Shulov, a zoologist at Hebrew University in Jerusalem, Israel.

Professor Shulov **appointed** himself a committee of one to search out the 130 creatures mentioned in the Old Testament. Among the **occupants** of this zoo are the crocodiles, camels, apes, peacocks, deer, foxes, and

sheep, some of whom had to be imported from other lands. They are settled in suitable **quarters** on a twenty-five acre **site** in Jerusalem.

Visitors to the zoo not only get to view and feed the animals, but they are also treated to **quotes** from Bible **verses** that encourage* the study of the Good Book and teach **morality** amidst the waddling of the ducks and the wailing* of the wolves. Not surprisingly, the children have the final* word at a special corner of the zoo, called the Garden of Eden, where animal cubs **roam** freely, **attracting** the attention of hundreds of youngsters who visit daily.

Read the following story to see how the new words are used in it.

How Our Language Grows

Many popular* expressions in our language have interesting backgrounds. When we **refer** to a person's weak spot as his "Achilles heel," we are recalling the story of the mighty Greek hero of the Trojan War, Achilles, a warrior of unusual strength and valor.* The mother of Achilles, in whose veins* flowed the blood of the gods, was warned at his birth that her son would die in battle. In great **distress**, she sought to save her son. In order to **diminish** his chances of being hurt and to give him **maximum** protection* in combat, she dipped the infant in the river Styx. The magic waters touched every part of the child's body except the heel that she held in her hand. Thus it happened many years later that as Achilles started to **flee** from an attack, a poisoned arrow struck him in the heel, the only spot where he was **vulnerable**.

Today, the meaning of "Achilles heel" is not confined* to a weak spot in the body but it also **signifies** a weakness in the character of an individual, or in the defenses of a nation, or in the structure of a system.

American politics, rather than **mythology**, provides the explanation for the word "bunk." This word came into the language in 1820 when Felix Walker, the representative from Buncombe County, North Carolina, formed the habit of making long, unnecessary speeches in Congress. When his **colleagues** asked him why he was **tormenting** them so, he **apologized** by saying it was his patriotic* duty to put those speeches in the record out of **loyalty** to his supporters at home. The word "Buncombe" was shortened to "bunk" and came to mean any thought that has little or no worth.

Place one of the new words in each of the blanks below.

1. The uneventful* flow of news was interrupted by a report of a ship in _____.
2. Our temperature for the day dropped from a _____ of 85 degrees to a minimum* of 70 degrees.

Read the following story to see how the new words are used in it.

Don't Look over My Shoulder!

The kibitzer is a person who **volunteers** useless information, especially in card games, causing the players to be **prejudiced** against him. The name comes from a Yiddish word which originally referred* to a certain bird whose **shrill** cry scared the animals away upon the approach* of the hunters. Though the kibitzer may think he is being **jolly** or **witty**, his advice often **hinders** more than it helps. We may scowl* at him or **lecture** him for his

abuse of our friendship, but he still continues to **mumble** his unwelcome remarks. The serious player may even wish he could make the kibitzer **mute** by sticking a **wad** of cotton in his mouth. The kibitzer, however, may not realize that he is causing torment* or distress* to his colleagues.* Thus we may have to resign* ourselves to his annoying habit if we wish to **retain** him as a friend.

Read the following story to see how the new words are used in it.

A Course for Parents

A course entitled "The Responsibilities of Parenthood" sounds as if it should be offered to students who are immediate **candidates** for parenthood. Not according to Dr. Lee Salk, who feels that teaching children about parenthood should **precede** the **adolescent** years. Dr. Salk, of the New York Hospital, teaches a volunteer* **coeducational** class of junior high school youngsters what it means to be a parent. He does not lecture* or present **radical** views. Rather, he conducts **spontaneous** discussions by encouraging* students to imagine that they are parents and asking them such questions as "What would you do if you found your child smoking?" or "How would you prepare your child for the first day of school?" The lessons **skim** over such topics as the need

to **vaccinate** children against diseases or to teach them not to be **untidy** or to use **utensils** properly. The class is more concerned with preparing students emotionally to become better parents some day and with making children **sensitive** to the responsibilities of parenthood.

The class members often express **temperate** and mature views. One girl said she would not approve of having a nurse bring up her child. Another felt that money earned through baby-sitting or other jobs should be shared with parents. When asked how his students rate, Dr. Salk retained* a hopeful outlook. "They are ready for this information," he declared. "I think they'll be honest parents."

Place one of the new words in each of the blanks below.

1. It is to Mitchell's credit that he gained a harvest* of friends in his _____ years.

Which of the words studied in this lesson is suggested by the picture?

Spotlight on: **vaccinate**—The first vaccines designed to protect us from disease were discovered by Louis Pasteur in France in 1885. He prepared a serum from cows (*vache* is the word for cow in French) and injected it into his patients. These patients did not contract smallpox, a dreaded disease that was conquered with the first vaccine.

Read the following story to see how the new words are used in it.

Summer Travel

If you are tired of making **vague** excuses for another dull summer at home, here is a thought to **elevate** your spirits. You do not need anything so radical* as winning a **lottery** to **finance** a trip to Europe. A student identity card that can be **obtained** for a few dollars from the Council on International Educational Exchange entitles you to discount tickets on certain charter flights to London and Paris, as well as reduced admission to many museums,

cinemas, and musical **events**.

Once in Europe, you can stretch your budget by staying at approved* youth hostels for about two dollars a night. So don't **discard** your hopes of becoming an international traveler. Soon you can be **soaring** into the skies or **skimming*** over the waves to new adventures that you will **subsequently relate** to your **stationary** friends.

Read the following story to see how the new words are used in it.

A Helping Hand

Youth workers Bill Nash and Jim Boyle are house-hunters, not so much for a house as for a concerned family willing to house and feed troubled youngsters temporarily. They try to give **prompt** attention to those who cannot or will not live at home.

For some, leaving home may have been the result of a **hasty** decision, based on a **scorching** remark and the subsequent* **tempest** within the family. The cooling-off period away from the family is a time to **soothe** feelings. With **sympathetic** outsiders, youngsters have a chance

to **redeem** themselves. The hope, of course, is that they will learn to relate* to adults again and quickly **resume** a normal life of **harmony** with their own families.

Some people **refrain** from offering their homes, expressing vague* fears of the harmful effects on their own children. But this has not been the case, even when the problem of the "visitor" was the **illegal** use of **narcotics**. One parent remarked, "With us it worked the other way. The horror of drugs became real to my own son. We got a lot more than we gave."

Place one of the new words in each of the blanks below.

1. I insist* on a _____ answer to my question.
2. Harriet's anger was subsequently* _____ by the apology.*
3. The minister said those who are not _____ from sin will perish.*

Spotlight on: **narcotics**—The age of a word can often give us a clue as to the age of the substance it describes. It seems that *narcotics* are indeed ageless. The word itself has been traced back to an ancient language called Indo-European, but we are certain it was used in the Golden Age of Greece. In those times, as now, *narcotics* were used to reduce pain.

Which of the words studied in this lesson is suggested by the picture?

Read the following story to see how the new words are used in it.

Listen to Smoky the Bear

At one time the United States was **heir** to great riches, for more than half of our country was covered with forests. Now the **majestic** woodlands have **dwindled** to the point where we have no **surplus** of trees. Of course, only a **traitor** to the beauties of nature would **deliberately** set a forest fire, but careless citizens are the **vandals** who are responsible for much of the destruction. In time of **drought** especially, scorching* fires started by careless smokers can reduce a beautiful forest to acres of blackened stumps.

Theodore Roosevelt understood that we cannot **abide**

the continual loss of our precious forests but we must learn to live in harmony* with nature. In 1905 he appointed* Gifford Pinchot to head the Forest Service which promptly* began to **unify** efforts in caring for our national forests. The modern forest rangers, from the "lookouts" stationed on mountain **summits** to the "smokejumpers" who parachute from airplanes to fight fires, ask us to **heed** the advice of Smoky the Bear, who has become their symbol.* Smoky says, "Only you can prevent forest fires."

Spotlight on: **drought**—Yes, the *gh* is silent as in “might” and several other English words. Why? Well, *drought* was an old English word with the *gh* sound pronounced. When the French invaded and conquered England, they brought (there it is again) their language and it had no *gh* sound in it. Eventually their influence was so great that English words containing *gh* took on French pronunciation.

Read the following story to see how the new words are used in it.

Gulliver's Travels

Jonathan Swift tried to show the smallness of people by writing the **biography** of Dr. Lemuel Gulliver. In one of his strangest adventures, Gulliver was shipwrecked. **Drenched** and weary,* he fell asleep on the shore. In the morning, he found himself tied to pegs in the ground, and **swarming** over him were hundreds of little people six inches high.

After a time he was allowed to stand, though he began to **wobble** from being bound so long. He was then marched through the streets, naturally causing a **tumult** wherever he went. Even the palace was not big enough for him to enter, nor could he **kneel** before the king and queen. But he did show his respect for them in another way.

The king was **dejected** because he feared an invasion of Lilliput by Blefuscu, the enemy across the ocean. The

reason for the war between the two tiny peoples would seem small and foolish to us. The rebels of Blefuscu were originally Lilliputians who would not abide* by the royal decision to crack their eggs on the small end instead of on the larger end. Gulliver, **obedient** to the king's command, waded out into the water when the tide **receded**, and sticking a little iron hook into each of fifty warships, he pulled the entire enemy fleet to Lilliput. Gulliver later escaped from Lilliput when he realized the tiny king was really a **tyrant** with no **charity** in his heart.

Oddly enough, the **verdict** of generations of readers has taken no heed* of the author's intention in *Gulliver's Travels*. Instead, while Lilliputians are still the symbol* of small, narrow-minded people, Swift's savage attack upon humankind has become one of the best-loved children's classics.

Place one of the new words in each of the blanks below.

1. The principal probed* the cause of the _____ in the cafeteria.
2. A _____ of insects descended* on the picnic food.
3. When asked for their _____ on the agreement, the members gave their approval spontaneously.*

Which of the words studied in this lesson is suggested by the picture?

Read the following story to see how the new words are used in it.

Roast Beef on Rye

A little digging will **unearth** the roots of our language and habits. For instance, our word "sandwich" is derived from the Earl of Sandwich, who lived in the time of George III. This gentleman would not **depart** from the gambling table for hours on end. If his play happened to **coincide** with dinner, he would **cancel** his regular meal and order a slice of meat to be served to him between two pieces of bread. The biography* of the Earl claims that we are his **debtors** for his discovery of the sandwich. Charles Dickens later used the phrase "sandwich man" to describe someone who walks about with a clearly **legible** message on **placards** hung on his chest and back.

An example of a superstition is the fear of walking under a ladder. This must have been a **contagious** fear for it seems to have started with the ancient belief that

spirits lived in trees or wood. "Knocking on wood" was a way of calling up the friendly spirit to protect one from harm. Today a member of the **clergy** might **sneer*** at this custom, expecting that by this time such superstitions would have **receded*** into the past with witches and ghosts.

Another expression, "giving someone the cold shoulder," has been traced to the Middle Ages, when a host would serve his guests a cold shoulder of mutton or beef instead of the **customary** hot food. This was a **transparent** attempt to show the guest he was no longer welcome. The host had thus found a more charitable* yet **effective** way of expressing his feelings without using a **scalding** remark.

Spotlight on: **legible**—An important idea in vocabulary can be learned with this word. A clear handwriting is described as *legible*—here the word is used *literally*, that is, in its exact, real meaning. When Thomas Wolfe wrote “murder sweltered in his heart and was *legible* upon his face,” he used the word *figuratively*, that is, in an imaginative, unusual sense. Many words can be used either literally or figuratively.

 - c. His unique* **oral** powers made Lincoln a man to remember.

Read the following story to see how the new words are used in it.

Weight-watchers

Judging from the popularity* of books on dieting, one would think an **epidemic** of **obesity** is sweeping the nation. Although being fat is not contagious,* it is a condition not to be sneered* at since it affects one-fourth of all Americans. Without **magnifying** the problem, professionals concerned* with the nation's health, from **chiropractors** to medical specialists, agree that being overweight is a major **obstacle** to good health. They point out that people will readily see the need to **ventilate** their homes for fresh air to get rid of vermin* which may cause disease, but they **jeopardize** their health by eating the wrong foods or the wrong amount of foods.

Coincidentally,* a recent survey of employment agencies showed that obesity* has a **negative** effect on a person's chances of landing a job. While the job-seeker is asking about salary and **pensions**, the employer is thinking about the worker's health—and weight is a **vital** consideration when it comes to injuries, disease, and absenteeism.

Some **municipal** jobs, in fact, do require an applicant to be within normal weight range, and one New York bank insists on an **oral** understanding that applicants will take off excess weight. As the *Wall Street Journal* put it, "Fat people often find slim pickings in the job market."

Which of the words studied in this lesson is suggested by the picture?

Read the following story to see how the new words are used in it.

Where Do We Go from Here?

When we grow too **complacent** with ourselves, along come writers who, **wasp**-like, sting us with reminders of the many problems we face—from **rehabilitating** former prisoners on **parole** to feeding the world's hungry population. Those authors do not see civilization rising almost **vertically** to greater and greater heights. Though a **multitude** of problems beset America, they **nominate** the large urban centers as **potentially** the most dangerous and requiring the most immediate attention. They see the cities as the **morgues** of dead hopes and

lost ideals.

We are **preoccupied** with trifles* like the **upholstery** in our homes or personal matters like pension* and benefits, but now we are called upon to contribute to our community on every vital* level—moral,* political, economic. We are not being urged to give up our beloved possessions, but our civilization can be saved only if we overcome the epidemic* of **indifference**. We must begin to live with a new openness to others and a determination to become the best of which we are capable.

Place one of the new words in each of the blanks below.

1. The children shrieked* with fear as the _____ flew over them.
2. It is illegal* to _____ a prisoner until he or she has served a minimum* sentence.
3. The municipal* council voted to _____ the run-down section of the city and to make it a model residential area.
4. Mike Pavonna was the unanimous* choice of the _____ for the office of mayor.
5. With all this equipment, we have the _____ to survive* for weeks in the most frigid* climate.
6. The worn _____ betrayed* the poverty of the family.
7. His family was distressed at Frank's _____ to the normal adolescent* activities.
8. Unfortunately,* Carmen was too _____ with dates to devote much time to her studies.
9. To star the air circulating*, turn the button to a _____ position.
10. Bob was pleased to be _____ for the presidency, but he gallantly* declined in favor of Carole.
11. When the security* leak was discovered, the editor called the newspaper _____ to check if there was any precedent* for such a case.
12. The winner's _____ smile annoyed some of the members of the audience.

Spotlight on: **wasp**—Newspaper writers enjoy taking the first letters of titles or expressions and constructing a word from them. While a wasp is certainly an insect, it also, when spelled *W.A.S.P.*, stands for the Women's Air Service Pilots or White-Anglo-Saxon-Protestant. Since a wasp is not regarded by most people with affection, you can imagine that the acronym (a word made up of first letters of a phrase) was not meant as a compliment to female pilots or Protestants.

Read the following story to see how the new words are used in it.

A Time for Decision

Carl Brown walked wearily* from the bus stop, his thoughts preoccupied* with the day's events. He had become accustomed to receiving the blame for his colleagues'* mistakes. He could remain complacent* when less deserving workers were promoted* ahead of him. He could even **maintain** an air of indifference* when the young man he had trained now **snubbed** him. What he could not **endure** was the ridicule of his fellow employees.* His **wrath** flamed at the thought that his

secret had been **exposed**. The **legend** of his honesty had died.

Carl Brown **pondered** his next move. Should he **resign** or take even more **drastic** measures? His steps led past the **wharf** where the ships were unloading their cargoes of fruit. He looked into the dark waters and took a deep breath. No, this was not a sin that could be erased. He heaved a sigh and determined to **amend** his ways. Never again would he sign his **ballot** "Carl Smith."

Spotlight on: **ballot** — This method of voting derives its name from the small balls (or stones) that were placed secretly in a box, a practice that is still used in some organizations even today. In city, state, and national elections, voting machines seem to be used in densely populated areas, but in farm towns and small cities, voters still drop their *ballots* (paper) in a box.

ABSOLUTELY ESSENTIAL WORDS

THIRD EDITION

HERE'S HOW EACH LESSON
BUILDS THE STUDENT'S VOCABULARY

WORDS TO LEARN

Every lesson presents a dozen new words. Each is presented in three different sentences to help students become acquainted with them.

WORDS IN A STORY

A brief, amusing essay features all twelve new words. Students see how words can be used.

CARTOON QUIZ

Students are shown a humorous picture. Which one of the lesson's new words is suggested by the cartoon?

TEST EXERCISES

Several different kinds of exercises help students find out how well they understand and remember the new words.

SPOTLIGHT

Using one of the lesson's new words, this feature introduces students to the fascinating history of the English language.

Added features include a pronunciation guide ■ Phonetic spellings for all new words ■ Word Review Quiz at the end of every six lessons ■ Answers to all exercises and word reviews
